Automatic Indexing of Lecture Videos Using Syntactic Similarity Methods | PMIST University- Thanjavur

Abstract:

This work presents a method for automatically indexing lecture videos using syntactic similarity. By transcribing spoken content and analyzing sentence structures, key segments are matched with user queries based on syntactic patterns. This improves search accuracy and makes it easier to find specific topics within lecture videos compared to keyword-based methods.

Photo Chain – Blockchain-Based Secure Photo Sharing | Prist University - Thanjavur

Abstract:

Photo Chain is a secure photo sharing system that leverages blockchain technology to ensure data integrity, ownership, and privacy. By storing photo metadata and access permissions on a decentralized ledger, it prevents unauthorized access and tampering. This approach enables users to share images confidently, with full control over access and a transparent history of photo usage.
